Wednesday, February 01, 2017

Dear Sir / Madam,

On Monday 16th January 2017 I attended the Rackheath Parish Council meeting and it was brought to my attention that several residents had voiced concerns regarding local Antisocial Behaviour on Facebook.

As part of your local Policing Team I personally monitor all calls to the Police from residents of Rackheath, although I do not personally investigate all the incidents raised, I will review them and request further attention if I feel it suitable.

I fully appreciate that Facebook is a platform for communication; however it is not a route to reporting issues to the Police. At this stage I have no access to the Parish page and cannot deal with issues I am unaware of.

Some individuals may be hesitant to report their concerns due to fears of reprisals. Please contact me in confidence knowing that we will discuss issues in a confidential manner in order to establish solution routes which does not affect the peace within the Community. Please do not suffer in silence.

Yours Sincerely

PC Sean Phillips
